

Suraj Singh

Noida, India — +91 7524859767 — ssurajsingh7703@gmail.com

[LinkedIn](#) — [GitHub](#) — [Portfolio](#)

Summary

Aspiring Data Analyst with hands-on experience in Python, SQL, and Power BI. Skilled in building machine learning models and interactive dashboards, with a strong interest in solving real-world data problems.

Education

B.Tech in Computer Science Engineering 2023–2026
Dr. A.P.J. Abdul Kalam Technical University

Diploma in Computer Science 2019–2022
SVNCP Kalan, Sultanpur

Technical Skills

Programming: Python, SQL
Data Analysis: Pandas, NumPy
Visualization: Power BI, Matplotlib, Seaborn
Database: MySQL
Web: HTML, CSS
Tools: Git

Experience

Data Analytics Intern Jul 2025–Present
QSpiders, Noida

- Analyzed structured datasets using Python and SQL to extract actionable insights
- Designed and deployed an interactive Weather Forecasting Dashboard using Power BI
- Improved data quality through cleaning, preprocessing, and transformation
- Optimized SQL queries to improve reporting performance

Machine Learning Intern Sep 2024–Nov 2024
Softpro India Computer Technologies Pvt. Ltd.

- Built a Rainfall Prediction model using Logistic Regression achieving 87% accuracy
- Performed feature engineering and exploratory data analysis on climate datasets
- Deployed ML model using Django for real-time web-based predictions
- Developed a YOLO-based real-time object detection system using OpenCV

Projects

- Object Detection System (YOLO)**
- Trained YOLO model on custom multi-class dataset for real-time detection
 - Achieved efficient object detection using OpenCV with live webcam integration
- Rainfall Prediction Web Application**
- Developed an end-to-end machine learning pipeline from preprocessing to deployment
 - Achieved 87% prediction accuracy using Logistic Regression
 - Integrated backend ML model with responsive frontend using Django
- Live Crypto Dashboard (Power BI)**
- Developed a real-time cryptocurrency dashboard using Power BI
 - Created interactive charts and filters for better data analysis
 - Enabled dynamic tracking of market trends
- Responsive Pizza Website**
- Built a mobile-first responsive website using HTML, CSS, and Bootstrap
 - Improved user interface and navigation experience

Achievements

- Built and deployed 4+ real-world machine learning and data analytics projects
- Achieved 87% accuracy in rainfall prediction model
- Presented technical projects to mentors and industry professionals
